Mr. William Sullivan
Chief Special Agent
Federal Bureau of Investigation
11000 Wilshire Blvd.
West Los Angeles, California

Dear Mr. Sullivan:

I am hereby requesting under Section 241 Title 18 of the U. S. Code, and under other applicable laws, that you proceed immediately to prosecute all persons responsible for the conspiracy to violate the civil rights of Sirhan B. Sirhan who is being held in San Quentin prison for a murder for which he was not responsible.

Information available to me shows that Senator Robert F. Kennedy lived until July 19, 1969 at which time he died by drowning on Chappaquiddick Island in Massachusetts.

The alleged murder of Robert Kennedy was on June 5, 1968. Mr. Sirhan could not possibly have killed the Senator under these circumstances.

All information which I possess to substantiate my charge will be made available to you at your request.

THE CHAPPAQUIDDICK COVERUP

In the early morning hours of July 19, 1969, a Deputy Sheriff named Christopher Look was driving home, travelling east on Chappaquiddick road from the Edgartown Ferry on Chappaquiddick Island in Massachusetts. Look came to a sharp right turn in the road, where the road intersected a dirt road called Dike Road, which continued straight in the same direction Look was travelling.

Look slowed to make the right turn and he noticed a car driving northeast on School Road toward him at the same intersection. As Look slowed to almost a stop, the other car, instead of negotiating the turn on to Chappaquiddick Road toward Edgartown, drove straight ahead and stopped on a narrow sand road leading to a cemetery. As the car passed in front of Look's headlights, he saw it was a black sedan and that there appeared to be a man and a woman in the front seat, and what appeared to be some clothing in the rear.

Look turned the corner and stopped about sixty feet from the other car, stepped out of his station wagon and walked back along the center line toward the car which was stopped at the entrance to the ancient cemetery. As he was about thirty-five feet away, the car quickly reversed, made a 90° right turn and headed towards Dike Bridge and the beach, the car disappeared at high speed in a cloud of dust. It was approximately 12:45 AM.

The black sedan travelled three-quarters of a mile and, at high speed, struck some ruts in the road in front of the wooden bridge, lost control and flipped over the right side into about nine feet of water. The car came to rest with the engine toward the bridge and the rear of the car at an elevated position. The two occupants of the car were upside down with water pouring into the only open window next to the driver's left arm. The driver drowned almost immediately and the young girl scrambled into the rear seat as the water rose around her. She soon discovered that in the upside down position, the elevated section of the floor of the rear section of the car trapped sufficient air that, by grasping the upside down seat, she was able to breathe.

The position of her drowned companion prevented her escape from the only open window; and she survived for approximately two hours. Shortly before 3 AM, or thereabouts, she expired from shock, exposure and lack of oxygen.

The girl was identified as Mary Jo Kopechne, secretary to Senator Robert F. Kennedy, who allegedly was murdered by Sirhan B. Sirhan in Los Angeles, approximately one year and one month earlier.

When rescuers pulled the girl's body from the car at 9 o'clock the next morning, the driver of the vehicle was not there.

Who was he and where had his body gone? When the car was pulled from the water, the front windshield which took the full

impact of the fall from the bridge was cracked but not broken in.

Both windows on the passenger side, which were smaller and did not receive such a force as did the windshield, were broken out to their frames.

Who was responsible for removing the glass from these windows? What was the purpose? Was the driver's body removed in the night and if so why was Miss Kopechne left inside the car?

What was the driver's identity? Why conceal both his body and his name?

At approximately 9 AM, the same morning, a strange conversation occurred at the Edgartown Ferry crossing at the time the paramedic was taking the body from the submerged car.

Three men boarded the ferry for the short trip across the narrow strait joining Edgartown Harbor with Katama Bay.

When the ferry docked at the Chappaquiddick terminal, one of the men, Mr. Tony Bettencourt, went up to Senator Ted Kennedy and asked, "Senator, they just took a dead girl out of your car, do you want a ride up the the bridge?" "No", said Kennedy, "I'm going over to town."

Another man named Hewitt said loudly, "Senator Kennedy, are you aware of the accident?"

One of Kennedy's companions said, "Yes, we just heard about it."

It seems to me that this was quite true, since I am fully convinced that the driver of the car was Robert Kennedy, not Ted Kennedy.

What was this terrible secret that forced the Senator from Massachusetts to take the blame for an accident which involved his brother, the former Senator from New York?

I am sure it is not necessary to overstate this case. It is better to leave the police work where it belongs, and hopefully, the Los Angeles police and the Edgartown authorities, will rise to the occasion and perform their duty.

CONSPIRACY REPORT NO. 1 (3-13-75)

Mrs. Sam "Casey" Gordon, deceased, told me approximately ten (10) years ago, that she had a woman as a house guest for approximately one year. The woman's name was Phyllis McGuire, a friend of Sam Giancana, a reputed mobster.

Casey told both my wife and I, that Marilyn Monroe had coincidentally appeared at the Seattle Worlds Fair, and in Reno, Nevada, when Senator Robert Kennedy had appeared at these locations with his family. She said that when Giancana came to Palm Springs, Miss McGuire made herself immediately available to him.

Casey lived on Crescent Drive, next to my house at 769 Crescent, which is now leased. I learned from other sources that Sam Gordon, Casey's husband was a boyhood friend of Jack Ruby, the original Jack Ruby from Chicago. I was told by a different source that Ruby was found shot to death in a barrel, and that the Dallas Ruby was an imposter.

Recent news accounts have charged that Sam Giancana employed one Johnny Roselli to make repeated attempts on Fidel Castro's life. These attempts were allegedly made at the approximate time of the Bay of Pigs invasion. (April 17, 1961)

When Roselli appeared for sentencing from a conviction resulting from a card cheating case, Roselli reportedly asked for leniency due to his participation in the Castro affair. The Judge said he did not deserve any "brownie points" for this and sentenced him to prison anyway.

The press at present, has mounted a campaign of accusation against Federal agencies with respect to their possible participation in political assassinations.

In my opinion, these accusations are not entirely justified, and I will tell you why.

I have firmly established that both Kennedy "assassinations" resulted in the death of persons other than President John Kennedy and Senator Robert Kennedy. With this in mind let me proceed:

The occurrence of two fake assassinations lends credence to the thought, that they were engineered in order to conceal those responsible for actual assassinations and assassination attempts.

In any criminal investigation, motive and timing should never be discounted.

The press is now suggesting that Fidel Castro had President Kennedy shot in retaliation for the attempts on his life.

We now know that this was not the case.

Let us suppose, that the disappearance from public life by President Kennedy was in fact, due to possible exposure of the

attempts on Castro's life and other domestic disclosures related thereto.

The press stated at first that two Massachusetts men, (Edelman and Walinsky), who were associates of RFK had stated that RFK had stopped the attempts on Castro's life. The next day the press said this was not the case, that it was President Kennedy who stopped the operation.

The facts are that the operation did take place and that there were six attempts to kill Castro, one of which resulted in the loss of a boat by gunfire.

It is of interest that Roselli's lawyer was Grant Cooper, who immediately following the Rosellis case, represented Sirhan Sirhan, for the alleged "murder" of RFK.

It is apparent that a complete understanding of the Friars Club Card Cheating Case (Roselli) was of paramount importance in dealing with Sirhan.

Now let us look at the fake assassination of RFK. When the true facts of this case were revealed on KUSC Radio (Rap Line, Lowell Ponte, April 24, 1970), a law suit was filed by one Ted Charach, that a plumber from Lockheed did the Senator in.

Time went by and following a discussion at Glendale College on June 5, 1974, that contained some very convincing information, Los Angeles was again invaded, this time from Massachusetts and New York.

A former New York Congressman, Allard Lowenstein, teamed with a man from UNCLE on KABC Radio to again advance "The Plumber in the Pantry", theory of political assassination.

Their intellectual discourse on two way radio was disturbed by a caller who called their attention to the coroner's report which described the deceased in other physical dimensions than the good Senator from New York possessed. According to the Los Angeles Times, RFK was positively shot in the pantry of an old hotel on Wilshire Blvd., on June 5, 1968. Nothing could be farther from the truth.

Another invitation to Glendale College on February 25, 1975, blew a lot of covers, to coin a phrase. It was pointed out that Allard Lowenstein, the advocate of assassination by plumber had employed a secretary who had participated in the joyful reunion with RFK at Chappaquiddick Island on July 19, 1969, thirteen months after RFK was supposed to have been laid to rest after his funeral in St. Patrick's Cathedral.

One thing led to another and it was soon apparent that in 1969, when bodies were arriving at Travis Air Force Base from Vietnam, Bobby was enjoying the good life at Chappaquiddick playground. Bobby's driving ability soon altered this injustice however, and he landed upside down with his mouth full of sea water, at Poucha Pond. Thus ended the saga of the New Frontier and the Mystery of Camelot.

On Channel 13 Los Angeles, a man of rapid voice named, Mort Sahl teamed with this above mentioned man from UNCLE on the night of March 12, 1975 and prepared the American uninitiated and uninformed public with the coming disclosure that the pantry gunfire resulted from blank cartridges, but to no one's surprise, he hung on tenaciously to the libel of the plumbing industry at Lockheed Aircraft Company in Burbank.

A Poster announcing that GEORGE C. THOMSON was to speak on Tuesday, February 25, 1975 at Glendale College from 11 AM to 12 Noon, in Room B-106.

GEORGE C. THOMSON is the author of 'The Quest for Truth'.

The following paragraphs are set out on this poster:

"The only gun found the night of the murder was found in the pantry with eight expended shells in its cylinder. The body which was taken to the morgue had a bullet removed during the autopsy which did not match the pantry gun.

"The victim was, therefore, shot by a gun other than the pantry gun and the murder was committed in an area other than the pantry."

Also set out on this poster is the following:

"Physical Descriptions for Comparison:

	<u>Victim</u>	<u>RFK</u>	<u>Difference</u>
Color Eyes	Hazel	Blue	-
Weight	165 lbs.	140-145	20 lbs.
Height	5'10½"	5'9"	

Attached is a xerox copy of the autopsy report on Robert F. Kennedy.

GENERAL EXTERNAL EXAMINATION:

The non-embalmed body, measuring 70-1/2 inches (179 cm) in length and weighing about 165 pounds (74.5 kg), is that of a well-developed, well-nourished and muscular Caucasian male appearing about the recorded age of 42 years. The extremities are generally symmetrical bilaterally, showing no obvious structural abnormality.

The head shows extensive bandaging, somewhat blood-stained in the posterior aspect. Dressings are also present in the right clavicular region, the right axilla, and the right ankle regions. Also present over the right inguino-femoral region are apparently elastoplast dressings. A recent tracheostomy has been performed at a comparatively low level. A clear plastic tracheostomy tube fitted with an inflatable cuff is in place. The area also shows a gauze dressing.

Lividity is well developed in the posterior aspect of the body, mainly at the upper shoulder and midback regions with approximately equal distribution bilaterally. The lividity blanches definitely on finger pressure.

Robert F. Kennedy
68-5731

Eye color is hazel. Pupillary diameters are equal at about 5 mm (3/16 inch).

The buccal mucosa and the tongue show no lesion.

Chest diameters are within normal limits and there is bilateral symmetry. The breasts are those of a normal adult male. The abdomen is scaphoid. No abdominal scar is identified. There is an old low medial inguinal scar on the right.

Texture and configuration of the nails are within normal limits, and no focal lesions are noted. There is no peripheral edema.

The skin in general shows a smooth texture and no additional significant focal lesion. There is abundant suntan, especially at the neck region where its contrast with the areas shaved for surgical preparation on the right can be noted.

No structural abnormality is noted on the back.

There is a diagonally disposed recent surgical incision about 3 inches (7.5 cm) in length in the right anterolateral femoral region. This incision has been intactly sutured. There is an associated plastic tubing of small diameter, centered about 1/2 inch (12 mm) from the inferior lateral margin of the incision.

'Data Furnished by Fred Schwartz,
Father of Emily Harris Schwartz
5/21/74 AM'

Mr. Schwartz resides at 112 Chicago Street, Clarendon Hills, Illinois, 60514, telephone number (312)323-6499 or (312)325-6388. He arrived at LAX on a Monday evening at 5:40 PM and stayed at the Holiday Inn - Brentwood, 170 North Church Lane, Los Angeles, telephone number 476-6411, Room 811.

Mr. Schwartz was picked up by an agent at the Holiday Inn at approximately 10:05 AM, on 5/21/74 and was brought to the Los Angeles Office of the FBI where he was debriefed regarding telephone calls he had received since his arrival in Los Angeles on 5/20/74.

Mr. Schwartz relayed the following:

"Between 8:30 AM and 9 AM on 5/21/74, a call came in to the Holiday Inn from a person claiming to be GEORGE THOMPSON, Consulting Engineer, 1528 Canata, Glendale, California, 241-6035.

In substance, THOMPSON mentioned the 'thought control' which had been mentioned with respect to the SLA activities. He had become aware of a new medical theory regarding thought control which involved a surgical technique applied onto an ear. He recommended the reading of a book by an authority on the matter by

Complaint Form dated 5/30/72 regarding a complaint received from GEORGE THOMSON, 1528 Canada Blvd., Glendale, 241-6035 regarding a man by the name of Nicholas Zorvas, Secret Service Agent shot in throat in Bremmer shooting of Wallace.

THOMSON said there was a picture in the "Los Angeles Times", Home Edition, that purports to show Bremmer in Ottawa. He said the man next to him bears a striking resemblance to the Secret Agent Zorvas, who was shot. He thinks this person is the same man.

He thought the FBI should look into this and report it to the Secret Service.

Memo to the SAC, Los Angeles from SA R. J. La Jeunesse, Jr., dated 3/27/72, captioned as follows:

"KENSALT"

GEORGE CECIL THOMPSON, who identified himself as a consulting engineer with offices at 1528 La Canada Avenue, Glendale, California, with telephone number 241-6035, telephonically contacted the writer on 3/8/72 and advised as follows:

56-156-3104
Cont:

"He stated he had previously contacted the FBI in connection with the hijacking of an aircraft by Arab guerrillas during the fall of 1970.

"He reportedly read of attempting to extort money from Trans World Airlines and is of the opinion that the same forces are responsible for the current attempt against Trans World Airlines.

In 56-156-2950 THOMPSON telephonically contacted the Los Angeles Division on 6/10/70, at which time he claimed to have evidence that Sirahan Sirahan could not have been the man who fired the fatal shots that killed late Senator Robert F. Kennedy.

Memo to the SAC, Los Angeles from SA R. J. La Jeunesse, Jr. dated 9/16/70, captioned as follows:

"KENSALT"

"On 9/10/70, a male individual, who identified himself as GEORGE CECIL THOMSON, contacted the writer and advised he had been referred to the writer by Sergeant Zimmerman of the Los Angeles Police Department. THOMSON resides at 1528 Canada Blvd., Suite 208, Glendale, California. He described himself as a "Consulting Engineer" and explained that he could be reached at telephone numbers 241-6035 or 252-0722.

He said he was calling because he had received a 'lightweight air mail' letter from New York, New York, postmarked, 9/7/70. On the rear of the envelope there appears the name of Martin S. (Sirhan) and an address of 2403 Caesar Avenue, New York, New York, 10375.

56-156-2990
Cont:

Mr. THOMSON stated the stationery bears the letters 'CBS'. The letter refers THOMSON to a Peter Noyes of the LA TV Station KNXT. The letter sets forth that statement that Noyes knows all there is to know about the assassination of the late Robert F. Kennedy.

(The letter was read by THOMSON over the phone)

THOMSON advised he has made numerous visits to the 'U. S. Department of Justice, Room 1158' in connection with civil rights matters. He stated that he was a little disturbed because he has repeatedly called the FBI; however, he has not received satisfaction.

During the conversation with THOMSON on 9/10/70, he stated that he had absolute proof that Senator Robert F. Kennedy was not shot and that Sirhan Sirhan is not responsible for his death.

On 9/11/70 THOMSON telephonically contacted the writer to advise that he had not yet sent the above described letter to the writer, as he promised to do on 9/10/70.

Cont:

On May 22, 1968 information was received from a source who has furnished reliable information in the past to the effect that Mr. H. L. Hunt, wealthy Dallas oilman, had received the following letter postmarked at Glendale, California, May 14, 1968 from Mr. GEORGE CECIL THOMSON, P. O. Box 289, Glendale, California:

Attached is a xerox copy of a letter(Reviewer's Note):

The copy in file is a very poor reading copy also

A portion of this is unreadable.

The defendant, William Greer and John H. Hellen, driving west to the the bullet resistant front compartment slowed to 4 m.p.h. hour as it entered the wide curb of the street on Second Street, near the building. Greer's turn of the wheel to the right and the car moved to the right front wheel, nearly missed the curb on the right side, separating the car from the narrow curb street in front of the building.

Witnessing the same scene, however, was a captured agent impersonating Mrs. S. Mrs. John Kennedy, the female on the right. This person, J. S. Kennedy, the son of the late Senator, was a well-known man, known to the family of John F. Kennedy. In his hands was a fully automatic weapon.

...pulling down by the throat. Higgins, the bar tender, who had
just been to the bar, came forward,
wearing a dark suit, a white shirt,
and a dark tie. He took the hat,
and the man pulled to a halt,
facing the building.

sidewalk about a 5 foot groove in the ground.

within a few minutes by Carolyn Walther as she walked down the street past the building doorway from her position South of Elm Street intersection where she had been standing in the sun on the East side of Houston Street quietly watching the parade.

Mr. Greer, the driver started to pull the heavy car forward not knowing the exact source of the gunfire. He moved forward approximately 20 feet and the same noise again occurred which was similar to the revving of a motorcycle engine. A second burst of fire struck the car. This time the main target was the young man impersonating the Texas Governor. This man had turned to his right. A bullet crashed through his right arm on his upraised hand producing bone fragments in the air. Another bullet struck him in the back near the right shoulder forcing pieces of rib bone fragments through his chest just below the right nipple. A third bullet struck him in the right thigh. He collapsed to the floor of the car.

A bullet struck the car in the front compartment area. The bullet entered the front side window area. One bullet struck the car just below the mirror opening the glass from left to right, but not penetrating it completely since it was not at an angle. This bullet came to rest between the right door and the front seat. The bullet penetrated the trim of the car and the glass of the front window.

These bullets struck their marks and one of the lierman people in the history would have been drastically injured since the bullet coverer would have been much more difficult.

As the burst of gunfire had another tragic consequence. A woman who had been standing in the street suddenly decided to retreat to the sidewalk area. In doing so she partially obscured the view of the man firing the gun. She was shot in the head from about 2 feet away from the muzzle of the gun. Her blood and flesh was found on the helmets of the motorcycle officers passing at that moment. The agent impersonating Connally had turned to alert the man on the floor with the machine gun. This man rose from the floor of the car just as Greer, the driver again pulled the car ahead following the second burst of gunfire. This put the target past the position of the man firing the gun and he swivel

in which to

As the man the car was in a semi-plane position he received a bullet in the back approximately 6 inches below the right shoulder. Nevertheless he struggled to his feet, but immediately received two almost simultaneous bullets cutting a slot across his head from the front snowing the road of the car with human debris. Another bullet crashed into the neckline about 1/3 up from the ear hole and fractured the vomer bone above the roof of his mouth. These wounds paralyzed Mr. Greer and the machine gun sprayed bullets into the interior of the car. He fell over dead, and the gun fell from his grasp. The firing stopped. Mr. Greer pushed the accelerator of the car and the heavy car with its cargo of dead men rolled toward Parkland Hospital. The gunman's bullets kept coming and they formed a pattern of fire in a straight line toward the car, striking the pavement to the left of the car, the grass of the curb in rapid succession. The car drove on, rapidly disappearing from effective range.

Machine gun bullets were fired in a fan shaped pattern to the right of the car. The pattern of fire swung in his tracks as the car moved to the left. Stray bullets reported by the press and also by the official who was riding with the car. Thus, I have described to you the horror of the Chicago massacre which covered the history and the present of our country. The criminal activity of our very own government is exposed which covered up the existence of this horror.

The horror of the Chicago massacre and the wounded people who were seen in the streets has no parallel in modern history. The horror of the Chicago massacre on St. Valentine's Day is brought back to the minds of the people. This horror is producing a remarkably powerful effect on the actual moral conscience of mankind. The moral code assumed to exist, now does not exist. People who were assumed to be moral are being exposed as being immoral. People whose morality was in question by the press are being shown to possess a higher quality of morality. They do not want any part of the horror. Whether it be individual murder or mass murder of genocide, the horror is upon us. Imagery is being exposed for what it truly is, nothing but an illusion.

... ..

the doctors had inflicted upon King's corpse in the bloody room in Parkland. Our national morality was in high gear.

Three Catholics got in, crowded to view the carriage. This man's life was due now for a trial. He was to be used for the world's greatest cause, namely, the election of a President who had not been shot. If you are not shocked by this story, you are different from me, that I am different, and I wish to stop this early. I want to give you a confidence for a reason. It is his most precious possession now he is his only light with the Union.

The powerful current of technological change is pushing back into our consciousness the need for simplification of the old and obsolescence of the new. Our first step is to

[illegible][illegible]

With the cooperation of Agents Connelley and McQuinn, 400 feet East of the bridge, with the express assignment of discharging a firecracker in front of the motorcade. The simultaneous discharge of simulated shot was planned to duplicate the planned shooting as nearly as possible.

[illegible][illegible]

Re: ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963 AT
DALLAS, TEXAS

According to source, also enclosed with the letter was a drawing on 20 $\frac{1}{2}$ " by 35" drafting paper labelled "Dallas Murder Map", and reflecting that George C. Thomson, Engineer, 1526 $\frac{1}{2}$ Canada Boulevard, Glendale 8, California, was the author of same.

The files of the Dallas Office of the FBI reflect that information concerning one George Cecil Thomson was set forth in the report of Special Agent Robert P. Gemberling at Dallas dated October 21, 1964, in captioned matter, on pages 25 thru 37.

Subsequent to the publication of the report of the President's Commission on the Assassination of President Kennedy, the FBI has been contacted by and received a considerable number of communications from George Cecil Thomson, a 51-year old civil engineer, who in 1964 resided at 917 Briarwood Lane, Glendale, California. He was identified at that time as the owner and operator of the Thomson Engineering Company, 1528 Canada Boulevard, Suite 208, Glendale, California.

Thomson appeared to be obsessed with the idea that Lee Harvey Oswald did not assassinate President Kennedy and Thomson prepared a 106-page treatise on this subject wherein he endeavored to prove his theories. This treatise was entitled "How President Kennedy Really Was Killed" or "The Quest for Truth", and primarily took issue with the scientific examinations conducted and the results thereof. His work was thoroughly analyzed and found to be based on fallacious and incomplete information and was of no value to the assassination investigation.

Sept 21, 1967

Dear Esther,

I not only think your letter of Sept. 19 was interesting, it was also factual as to the close attention given my presentation of the "Kennedy Hoax" at Shirley Alloway's house in New London, Conn.

For all citizens of the U.S. who are afflicted with the same turmoil which has been visited recently upon the Governor of Michigan (Brainwashing).

Let me word this in the briefest way possible.

- (1) The body at Washington had a bullet in the back and all wounds were from the rear.
- (2) The body at Dallas had NO back wound and ALL wounds were from the front.

Q.E.D. Two bodies, neither of them Kennedy. Conspiracy, murder, concealment, fraud and you name it.

As to the identity of the gunman, as early as 1965, I personally asked two agents of the FBI (LA office) for his identity. This was refused so I set upon the task of determining his identity myself. It was not until after three years of work that I satisfied myself that the insane lunatic who shot and killed at least six people on that day was LBJ himself.

A similar request to Katsenbach's office was disregarded.

Now, Esther, the Warren Commission identified the man at the Gunman's right and the little girl at the gunman's left. Not to be outdone, I personally identified the gunman. All evidence points to LBJ.

Let the Department of Justice state publicly that I am wrong.

To bad, They do not dare to because they cannot.

They have the power, but I have the truth.

The reason the Kennedy's returned the Xrays to the government was because they were not their property since the body was not JFK.

CC: Pres. of U.S.

Memo to the SAC, Los Angeles from SA Thomas J. Bevans
dated 3/15/67 captioned as follows:

"ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
11/22/63
DALLAS, TEXAS
MISCELLANEOUS-INFORMATION
CONCERNING"

On 3/14/67, Los Angeles Municipal Judge Philip M. Newman, Division 23, thru City Attorney Lawrence Young, telephonically contacted Supervisor William J. Nolan regarding a letter he received from one GEORGE C. THOMSON in which THOMSON criticized the Judge for sentencing of anti-war demonstrators. Young also stated that this letter contained some printed material in reference to the assassination of the late President John F. Kennedy.

On 3/15/67 SA Bevans, accompanied by SA Eugene B. McCarthy, contacted Judge Newman in his chambers, at which time Judge Newman made available referenced letter and printed material. Judge Newman stated that THOMSON is unknown to him and he sees no reason why THOMSON sent him the material regarding John F. Kennedy.

Complaint Form dated 10/12/64, from complainant: GEORGE THOMSON regarding Oscar Grunberg, 1711 North Kenmore, Los Angeles, California.

89-75-565
Cont:

Complainant said that he has been contacted by SA Phil Deily in connection with Jack Ruby and he has furnished the FBI with his phone number and address before. He said that Agent Deily knows how to get in touch with him. He said that he has an employee in his office named Oscar Grunberg who is from South America and has a rich cousin in South America. He considers Grunberg to be completely loyal to the United States but he wanted Grunberg's name to be in the possession of the FBI in view of his foreign connections.

Complainant said that he sometimes thinks that the Russians are reading his mind because some of the things that he thinks in solitude he reads in the newspapers later.

UNKNOWN SUBJECT
SIRHAN B. SIRHAN - VICTIM
CIVIL RIGHTS

On March 19, 1975, Assistant Director William A. Sullivan, of the Los Angeles Division of the Federal Bureau of Investigation, Los Angeles, California, received a letter dated March 14, 1975, from George C. Thomson, of 1528 Canada Boulevard, Glendale, California 91208 (telephone 241-6085). A Xerox duplication of that letter is attached as Page two. Mr. Thomson forwarded a carbon copy of the same letter to Special Agent Gilbert G. Benjamin, in which Thomson enclosed two Xerox duplicated documents. The first, titled, "THE CHAPPAQUIDDICK COVERUP," is attached as Pages three and four. The second, titled, "CONSPIRACY REPORT NO. 1 (3-13-75)," is attached as Pages five through seven. In each of these letters, Thomson enclosed a printed business card, one Xerox copy of which is attached as Page eight.

Mr. William Sullivan
Chief Special Agent
Federal Bureau of Investigation
11000 Wilshire Blvd.
West Los Angeles, California

Dear Mr. Sullivan:

I am hereby requesting under Section 241 Title 18 of the U. S. Code, and under other applicable laws, that you proceed immediately to prosecute all persons responsible for the conspiracy to violate the civil rights of Sirhan B. Sirhan who is being held in San Quentin prison for a murder for which he was not responsible.

Information available to me shows that Senator Robert F. Kennedy lived until July 19, 1969 at which time he died by drowning on Chappaquiddick Island in Massachusetts.

The alleged murder of Robert Kennedy was on June 5, 1968. Mr. Sirhan could not possibly have killed the Senator under these circumstances.

All information which I possess to substantiate my charge will be made available to you at your request.

Please advise me of your action as soon as possible.

Very truly yours,

cc: Gilbert Benjamin
Special agent of
the F. B. I.

GCT/dd

THE CHAPPAQUIDDICK COVERUP

In the early morning hours of July 19, 1969, a Deputy Sheriff named Christopher Look was driving home, travelling east on Chappaquiddick road from the Edgartown Ferry on Chappaquiddick Island in Massachusetts. Look came to a sharp right turn in the road, where the road intersected a dirt road called Dike Road, which continued straight in the same direction Look was travelling.

Look slowed to make the right turn and he noticed a car driving northeast on School Road toward him at the same intersection. As Look slowed to almost a stop, the other car, instead of negotiating the turn on to Chappaquiddick Road toward Edgartown, drove straight ahead and stopped on a narrow sand road leading to a cemetery. As the car passed in front of Look's headlights, he saw it was a black sedan and that there appeared to be a man and a woman in the front seat, and what appeared to be some clothing in the rear.

Look turned the corner and stopped about sixty feet from the other car, stepped out of his station wagon and walked back along the center line toward the car which was stopped at the entrance to the ancient cemetery. As he was about thirty-five feet away, the car quickly reversed, made a 90° right turn and headed towards Dike Bridge and the beach, the car disappeared at high speed in a cloud of dust. It was approximately 12:45 AM.

The black sedan travelled three-quarters of a mile and, at high speed, struck some ruts in the road in front of the wooden bridge, lost control and flipped over the right side into about nine feet of water. The car came to rest with the engine toward the bridge and the rear of the car at an elevated position. The two occupants of the car were upside down with water pouring into the only open window next to the driver's left arm. The driver drowned almost immediately and the young girl scrambled into the rear seat as the water rose around her. She soon discovered that in the upside down position, the elevated section of the floor of the rear section of the car trapped sufficient air that, by grasping the upside down seat, she was able to breathe.

The position of her drowned companion prevented her escape from the only open window; and she survived for approximately two hours. Shortly before 3 AM, or thereabouts, she expired from shock, exposure and lack of oxygen.

The girl was identified as Mary Jo Kopechne, secretary to Senator Robert F. Kennedy, who allegedly was murdered by Sirhan B. Sirhan in Los Angeles, approximately one year and one month earlier.

When rescuers pulled the girl's body from the car at 9 o'clock the next morning, the driver of the vehicle was not there.

Who was he and where had his body gone? When the car was pulled from the water, the front windshield which took the full

impact of the fall from the bridge was cracked but not broken in.

Both windows on the passenger side, which were smaller and did not receive such a force as did the windshield, were broken out to their frames.

Who was responsible for removing the glass from these windows? What was the purpose? Was the driver's body removed in the night and if so why was Miss Kopechne left inside the car?

What was the driver's identity? Why conceal both his body and his name?

At approximately 9 AM, the same morning, a strange conversation occurred at the Edgartown Ferry crossing at the time the paramedic was taking the body from the submerged car.

Three men boarded the ferry for the short trip across the narrow strait joining Edgartown Harbor with Katama Bay.

When the ferry docked at the Chappaquiddick terminal, one of the men, Mr. Tony Bettencourt, went up to Senator Ted Kennedy and asked, "Senator, they just took a dead girl out of your car, do you want a ride up the the bridge?" "No", said Kennedy, "I'm going over to town."

Another man named Hewitt said loudly, "Senator Kennedy, are you aware of the accident?"

One of Kennedy's companions said, "Yes, we just heard about it."

It seems to me that this was quite true, since I am fully convinced that the driver of the car was Robert Kennedy, not Ted Kennedy.

What was this terrible secret that forced the Senator from Massachusetts to take the blame for an accident which involved his brother, the former Senator from New York?

I am sure it is not necessary to overstate this case. It is better to leave the police work where it belongs, and hopefully, the Los Angeles police and the Edgartown authorities, will rise to the occasion and perform their duty.

CONSPIRACY REPORT NO. 1 (3-13-75)

Mrs. Sam "Casey" Gordon, deceased, told me approximately ten (10) years ago, that she had a woman as a house guest for approximately one year. The woman's name was Phyllis McGuire, a friend of Sam Giancana, a reputed mobster.

Casey told both my wife and I, that Marilyn Monroe had coincidentally appeared at the Seattle Worlds Fair, and in Reno, Nevada, when Senator Robert Kennedy had appeared at these locations with his family. She said that when Giancana came to Palm Springs, Miss McGuire made herself immediately available to him.

Casey lived on Crescent Drive, next to my house at 769 Crescent, which is now leased. I learned from other sources that Sam Gordon, Casey's husband was a boyhood friend of Jack Ruby, the original Jack Ruby from Chicago. I was told by a different source that Ruby was found shot to death in a barrel, and that the Dallas Ruby was an imposter.

Recent news accounts have charged that Sam Giancana employed one Johnny Roselli to make repeated attempts on Fidel Castro's life. These attempts were allegedly made at the approximate time of the Bay of Pigs invasion. (April 17, 1961)

When Roselli appeared for sentencing from a conviction resulting from a card cheating case, Roselli reportedly asked for leniency due to his participation in the Castro affair. The Judge said he did not deserve any "brownie points" for this and sentenced him to prison anyway.

The press at present, has mounted a campaign of accusation against Federal agencies with respect to their possible participation in political assassinations.

In my opinion, these accusations are not entirely justified, and I will tell you why.

I have firmly established that both Kennedy "assassinations" resulted in the death of persons other than President John Kennedy and Senator Robert Kennedy. With this in mind let me proceed:

The occurrence of two fake assassinations lends credence to the thought, that they were engineered in order to conceal those responsible for actual assassinations and assassination attempts.

In any criminal investigation, motive and timing should never be discounted.

The press is now suggesting that Fidel Castro had President Kennedy shot in retaliation for the attempts on his life.

We now know that this was not the case.

Let us suppose, that the disappearance from public life by President Kennedy was in fact, due to possible exposure of the

attempts on Castro's life and other domestic disclosures related thereto.

The press stated at first that two Massachusetts men, (Edelman and Walinsky), who were associates of RFK had stated that RFK had stopped the attempts on Castro's life. The next day the press said this was not the case, that it was President Kennedy who stopped the operation.

The facts are that the operation did take place and that there were six attempts to kill Castro, one of which resulted in the loss of a boat by gunfire.

It is of interest that Roselli's lawyer was Grant Cooper, who immediately following the Rosellis case, represented Sirhan Sirhan, for the alleged "murder" of RFK.

It is apparent that a complete understanding of the Friars Club Card Cheating Case (Roselli) was of paramount importance in dealing with Sirhan.

Now let us look at the fake assassination of RFK. When the true facts of this case were revealed on KUSC Radio (Rap Line, Lowell Ponte, April 24, 1970), a law suit was filed by one Ted Charach, that a plumber from Lockheed did the Senator in.

Time went by and following a discussion at Glendale College on June 5, 1974, that contained some very convincing information, Los Angeles was again invaded, this time from Massachusetts and New York.

A former New York Congressman, Allard Lowenstein, teamed with a man from UNCLE on KABC Radio to again advance "The Plumber in the Pantry", theory of political assassination.

Their intellectual discourse on two way radio was disturbed by a caller who called their attention to the coroner's report which described the deceased in other physical dimensions than the good Senator from New York possessed. According to the Los Angeles Times, RFK was positively shot in the pantry of an old hotel on Wilshire Blvd., on June 5, 1968. Nothing could be farther from the truth.

Another invitation to Glendale College on February 25, 1975, blew a lot of covers, to coin a phrase. It was pointed out that Allard Lowenstein, the advocate of assassination by plumber had employed a secretary who had participated in the joyful reunion with RFK at Chappaquiddick Island on July 19, 1969, thirteen months after RFK was supposed to have been laid to rest after his funeral in St. Patrick's Cathedral.

One thing led to another and it was soon apparent that in 1969, when bodies were arriving at Travis Air Force Base from Vietnam, Bobby was enjoying the good life at Chappaquiddick playground. Bobby's driving ability soon altered this injustice however, and he landed upside down with his mouth full of sea water, at Poucha Pond. Thus ended the saga of the New Frontier and the Mystery of Camelot.

On Channel 13 Los Angeles, a man of rapid voice named, Mort Sahl teamed with this above mentioned man from UNCLE on the night of March 12, 1975 and prepared the American uninitiated and uninformed public with the coming disclosure that the pantry gunfire resulted from blank cartridges, but to no one's surprise, he hung on tenaciously to the libel of the plumbing industry at Lockheed Aircraft Company in Burbank.

UNKNOWN SUBJECT
SIRHAN B. SIRHAN - VICTIM

Indices of the Los Angeles Division of the FBI indicate that from 1964 to the present, Mr. Thomson has made numerous complaints to this division of the FBI, by telephone, mail, or in person. Most of these complaints have dealt with the theme that President John F. Kennedy was not shot in Dallas, Texas; that Senator Robert F. Kennedy was not killed at the Ambassador Hotel, in Los Angeles; that there was an erroneous identification in the shooting of Governor George C. Wallace; and that attempted aircraft hijackings from 1970 through March 1972 were the responsibility of Arab guerrillas. Additional information from several different individuals indicates that they too were contacted by Mr. Thomson with similar complaints.

On October 12, 1964, Thomson telephonically contacted the Los Angeles Division of the FBI at which time he wanted to report he had in his employment a man from South America whose name he felt the FBI should have in its files. He said he considered the individual completely loyal to the United States but "in view of his foreign connections" thought his name should be in the possession of the FBI. At that time Thomson continued, "Sometimes I think the Russians are reading my mind, because things I think in solitude I read later in the newspapers."

In the fall of 1967, a United States Senator furnished the FBI with a copy of a communication from Thomson in which the latter indicated that after three years investigation he had satisfied himself "that the insane lunatic who shot and killed at least six people that day" (the day President Kennedy was shot in Dallas) was none other than the then Vice President, Lyndon B. Johnson. Thomson's letter continued, "Let the Department of Justice state publicly that I am wrong. To bad, They do not dare to beacuse they cannot. They have the power, but I have the truth."

On July 30, 1970, George C. Thomson called this office to advise that based on his analysis of the autopsy of the victim of the shooting at the Ambassador Hotel in Los Angeles, he was of the opinion that Senator Robert F. Kennedy was not dead, and that Sirhan B. Sirhan was not guilty. He said he based his conclusions on the alleged paths of the bullets and the direction in which they were supposed to have been fired.

On August 6, 1970, another source who has furnished reliable information in the past, reported that he had overheard George C. Thomson state publicly, "President John F. Kennedy was never assassinated in Dallas, Texas. The person shot in that car was a JFK double."

UNKNOWN SUBJECT
SIRHAN B. SIRHAN - VICTIM

During an interview in connection with another official investigation in May 1974, the person being interviewed reported he had received a telephone call during the morning of May 21, 1974, by an individual who introduced himself as George Thomson, Consulting Engineer, of Glendale, California. This source questioned Thomson's mental stability, on the basis of allegations the latter made regarding "a conspiracy by the FBI and the police to do away with the Symbionese Liberation Army", a characterization of which is appended hereto, and Thomson's comment on "thought control." He said that Thomson had indicated he became aware of a "new medical theory regarding 'thought control' which involved a surgical technique applied onto an ear."

APPENDIX

SYMBIONESE LIBERATION ARMY

The Symbionese Liberation Army (SLA) was reportedly formed in the Summer of 1973, in California. An SLA document captioned, "Declaration of Revolutionary War and the Symbionese Program," dated 8/21/73, states " . . . Therefore, we of the Symbionese Federation of the SLA . . . do now, by the rights of our children and people and by force of arms and with every drop of our blood, declare revolutionary war against the fascist, capitalist class. We support by force of arms the just struggles of all oppressed people for self-determination and independence within the United States and the world, and hereby offer to all liberation movements, revolutionary workers' groups and peoples' organizations our total aid and support for the struggle for freedom and justice for all people and races" The SLA has claimed credit for the 11/6/73 assassination of Dr. Marcus Foster, Oakland, California, School Superintendent; the 2/4/74 kidnaping of Patricia Campbell Hearst, daughter of newspaper publisher-owner Randolph A. Hearst; and the 4/15/74 robbery of the Hibernia Bank, San Francisco, California, in the furtherance of its revolutionary objectives. Six members of the SLA were involved in a shoot-out with the FBI and Los Angeles, California, police on 5/17/74, resulting in their deaths. Although no current information has been developed indicating the group has been active in areas other than California, other groups and individuals have surfaced claiming adherence to the SLA's revolutionary tenets.

MISCELLANEOUS INFORMATION CONCERNING," stated, "A telegram dated October 3 was received from GEORGE C. THOMSON, Palm Springs, California, FAirview 4-5171 and reads" 'Have definite proof OSWALD is innocent. Please advise proper course of action.' No information identifiable with THOMSON located in Bureau files."

On 5/21/74, FRED SCHWARTZ, 112 Chicago Street, Clarendon Hills, Illinois, when being interviewed in this office in connection with aspects of the HEARNAP investigation stated that he had received a telephone call earlier that same day from a person claiming to be GEORGE THOMSON, Consulting Engineer, of Glendale, California. SCHWARTZ questioned THOMSON's mental stability, on the basis of allegations the latter made regarding "a conspiracy by the FBI and the police to do away with the SLA;" and THOMSON's comments on "thought control." THOMSON indicated he had become aware of a "new medical theory regarding thought control, which involved a surgical technique applied onto an ear." (This information has been included in the LHM on Page 10.

LA 5343-S is the source of the information on Page 9 of the LHM regarding THOMSON's statements that President JOHN F. KENNEDY was not killed in Dallas, Texas, as it was a "double" riding in the car at the time.

The Senator referred to on Page 9, was the Honorable B. EVERETT JORDAN, which information was forwarded to this office by the Bureau under date of 10/12/67.

The Dallas Division by airtel to the Bureau and Los Angeles dated 5/27/68, captioned, "ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY, 11/22/63, AT DALLAS, TEXAS. MISCELLANEOUS - INFORMATION CONCERNING," indicated that information relating to THOMSON had been set forth in Pages 25-37 of the report by SA ROBERT P. GEMBERLING at Dallas, 10/21/64, in that matter. They continued that THOMSON appeared to be obsessed with the idea that LEE HARVEY OSWALD did not assassinate President KENNEDY, and that he had prepared a 106-page treatise entitled, "How President Kennedy Really Was Killed" or "the Quest for Truth," in which he endeavored to prove his theories. His work was thoroughly analyzed and found to be based on fallacious and incomplete information and was of no value to the assassination investigation. Subsequent to the publication of the report of the President's Commission on the Assassination THOMSON contacted the Dallas Office on numerous occasions.

Receipt of THOMSON's letters to the ADIC and SA BENJAMIN were not acknowledged in writing; however, he was telephonically contacted on 3/20/75 (there were no answers to repeated attempts to reach him on 3/19/75) and advised that copies of his letter and its enclosures would be furnished to the Department of Justice (since the enclosures indicate at the bottom they have been copyrighted in 1975), for its consideration. He stated he fully approved of such action, and had no objection to the reproduction of the copyrighted materials for official use.

Dean J. Walter Smith
1500 Verdugo Road
Glendale, California

Dear Dean Smith:

I am very appreciative of your allowing me to speak
on campus on June 3, 1975 regarding an investigation of
the John F. Kennedy Case.

In the spirit of full enlightenment and disclosure
I have telephoned a Special Agent of the F. B. I. and I
expressed a desire that they have a representative present
due to the sensitivity of the subject.

He said that he would also relayed to the
Special Agent in Charge William Sullivan in Los Angeles
and extend him an invitation to the meeting on the morning
of June 3, 1975.

His telephone number is 877-0111.

Very truly yours,

Memorandum

TO : SAC, LOS ANGELES (44-2897)

DATE: 5/30/75

FROM : SUPERVISOR ROBERT E. KERTIN

SUBJECT: GEORGE C. THOMSON
INFORMATION CONCERNING

On 5/29/75 WALT SMITH, Dean of Student Affairs, Glendale College, Glendale, California, telephonically advised that the students of Glendale College made arrangements to have THOMSON appear on campus on 6/3/75 at 11:00 A.M. in their campus center building to discuss the JOHN F. KENNEDY assassination.

Dean SMITH advised that he has utilized his offices to keep THOMSON off the campus for the past year. However, because of the student desires, THOMSON has been allowed to appear on campus to discuss President KENNEDY's assassination for one hour.

Mr. SMITH advised the reason he is bringing this to our attention is that THOMSON wrote him a letter stating that he should contact WILLIAM A. SULLIVAN at the FBI office and invite him to attend.

I told Dean SMITH that Mr. SULLIVAN has no interest in hearing THOMSON speak and would not be in attendance at this function. Dean SMITH stated he understood, but inasmuch as THOMSON wrote to him asking him to contact Mr. SULLIVAN, he did so.

Mr. Ted Gunderson
Federal Bureau of Investigation
Los Angeles, CA

Subject: PREVIOUS ATTEMPTS TO OVERTHROW THE FEDERAL GOVERNMENT
FBI INTERVIEW OF NOVEMBER 18, 1977 WITH
SPECIAL AGENT JOHN KELLER

Dear Sir:

Please consider this letter a formal complaint against Special Agent John Keller of your organization and against an agent unidentified who refused to allow me to bring vital national defense information and evidence to your personal attention when such a request was made by telephone on November 17, 1977.

At approximately 2:00 p.m. on November 18, 1977, an interview was conducted in your offices with the following persons in attendance:

Mr. George C. Thomson
Mrs. George C. Thomson
Miss Patricia Donnelly
Mr. Marc Blalack

The interview was initiated by myself when, upon reading a U.S. Government publication revealing certain conversations in the White House between President Nixon and some of his assistants, reference was made to a man named William C. Sullivan. Mr. Sullivan was recently killed in an accident, the full details of which have not been revealed in the press. Mr. Sullivan was the head of FBI intelligence just prior to the time these conversations took place.

The tone and substance of these conversations indicated that President Nixon and his closest aides feared for Mr. Sullivan's safety. It was for this reason that I requested the interview since it was apparent to me that, since a high ranking FBI official had recently died a violent death; and that his knowledge of the details of Dallas, Los Angeles, and Chappaquidick were of such extreme importance, a possible conspiracy to

murder him should be investigated.

I had at hand for the interview evidence of the following nature:

1. Two photographs which conclusively prove that President Kennedy was not present in the murder car at Dallas and was therefore not shot.
2. Conclusive proof founded on the results of the autopsy, grand jury testimony, eye witnesses' statements, and photographs which prove that also Senator Robert Kennedy was not shot in Los Angeles.
3. A logical presentation which would lend credence to the supposition that Senator Robert Kennedy subsequently died by drowning at Chappaquidick Island in 1969.

This evidence and evidence Miss Patricia Donnelly attempted to introduce was refused by Special Agent Keller, and the meeting abruptly terminated.

For the above reasons, I am requesting that I be allowed to present this information to you personally, since it is my conviction that a proper evaluation of its contents would be valuable both to the FBI and the people of this beautiful country.

Very truly yours,

A handwritten signature in cursive script, appearing to read "George C. Thomson".

GEORGE C. THOMSON
INFORMATION CONCERNING

DIRECTOR, FBI

ReButelcall of Inspector THOMAS J. BIAMONTE, FBI
Headquarters, to Los Angeles 5/16/78.

During retelcall Inspector BIAMONTE advised that the Bureau recently received a letter from captioned individual which had been directed to the Department of Justice which was dated 1/11/78. According to Inspector BIAMONTE, instant letter contained critical comments regarding Supervisor JOHN HALL.

A search of the files at Los Angeles failed to locate a letter from THOMSON dated 1/11/78. There are, however, numerous other letters received from THOMSON over the years, the latest of which is dated 11/21/77, in which THOMSON is critical of a complaint agent for not permitting him to fully present information in THOMSON's possession concerning the assassination of former President KENNEDY and former Senator KENNEDY. THOMSON stated in his letter that he has information which will conclusively prove that President KENNEDY was not present in the murder car at Dallas and was therefore not shot. He also claims to have information including photographs which prove that Senator ROBERT KENNEDY was not shot in Los Angeles but rather died by drowning at Chappaquiddick Island in 1969.

THOMSON's letter of 11/21/77 was orally acknowledged by Supervisor HALL. During that conversation Mr. THOMSON was told that all of the information previously furnished by him to the Los Angeles Office of the FBI had been forwarded to FBI Headquarters and made available to the U. S. Department of Justice. He was advised that unless he had new information to present, it was not necessary for him to re-present his alleged evidence.

The Bureau should note that THOMSON was the subject of a Bureau airtel to all SACs dated 12/15/64 wherein THOMSON's work was noted to be fallacious and of no value.
